PROFESSIONAL SUMMARY

Data Analyst with hands-on experience in Exploratory Data Analysis (EDA), Power BI dashboarding, SQL querying, Python automation, and Excel reporting. Proven ability to transform raw data into actionable business insights that improve decision-making and operational efficiency. Experienced in data cleaning, statistical analysis, KPI reporting, and stakeholder communication, with strong motivation to contribute to enterprise-scale data-driven initiatives.

EDUCATION

Bachelor of Technology – Electronics and Communication Engineering **November 2020 – April 2024**

Vidya Jyothi Institute of Technology, Hyderabad **CGPA: 8.17/10.0**

Data Analytics Professional Training - Naresh i Technologies, Hyderabad **September 2025 – December 2025**

- Hands-on training in Python, SQL, Excel, Power BI, Statistics, and EDA.
- Built real-world analytics projects in revenue optimization, churn prediction, and cross-selling.
- Applied hypothesis testing, dashboard development, and business insight generation.

TECHNICAL SKILLS

- **Data Analysis & Programming:** Python (Pandas, NumPy, Matplotlib, Seaborn), Statistical Analysis, EDA.
- **Databases & Querying:** SQL, MySQL (Joins, CTEs, Window Functions, Query Optimization).
- **BI & Visualization:** Power BI (DAX, KPI Dashboards, Data Modeling), Tableau.
- **Excel & Reporting**: Pivot Tables, Power Query, VLOOKUP/XLOOKUP, Charts.
- **Tools:** VS Code, Jupyter Notebook, GitHub, Google Collab.
- **Core Competencies**: Data Cleaning, Data Validation, Dashboard Development, Business Reporting, Stakeholder Communication.

INTERNSHIP EXPERIENCE

Data Analyst Intern | ExcelR EdTech Pvt. Ltd. **February 2025 – May 2025**

- Analyzed 48K+ sales records using Python to identify revenue trends and customer patterns.
- Built an interactive Power BI dashboard to monitor key KPIs including Total Revenue, Total Orders, Average Order Value.
- Developed SQL queries to calculate KPIs and analyze sales distribution across pizza categories and sizes.
- Performed time-series analysis (hourly, daily, monthly) to identify peak ordering hours and weekly sales patterns.
- Identified top and bottom performing pizzas by revenue, quantity, and order count to support menu optimization.

PROJECTS

Taxi Revenue Optimization — Hypothesis Testing | Python, Statistics, EDA.

- Analyzed 2.2M+ taxi trip records to identify 11% higher fares from credit card payments.
- Performed hypothesis testing ($p < 0.05$) to validate revenue drivers.
- Built regression model ($R^2 = 0.76$) and visual dashboards to support pricing strategies.

Cross-Selling Strategy Optimization – Insurance Analytics | Python, Seaborn, EDA.

- Segmented customers using demographic and behavioral data.
- Identified high-conversion age group (30–45) to support 12% CAC reduction.
- Delivered targeting insights to improve marketing ROI.

Pizza Sales Business Intelligence Dashboard | Power BI, SQL, Python

- Analyzed 48K+ pizza sales records using Python, SQL, and Power BI to uncover business insights.
- Built a Power BI dashboard tracking KPIs: $817K revenue, 21K orders, $38.31 AOV, and 49K pizzas sold.
- Used SQL and Python to identify peak sales periods and top/bottom performing pizzas.

Exploratory-Analysis-of-Geolocational-data | Python, K-Means Clustering, Machine Learning.

- Applied K-Means clustering to segment customers into 5 actionable groups.
- Generated location-based insights to support market expansion and targeting decisions.
- Created visualizations and reports to support data-driven strategic decision-making.

CERTIFICATIONS

- Microsoft Certified Power BI Data Analyst Associate (PL-300).
- IBM Data Analyst Professional Certificate – IBM (Coursera).
- Qlik Sense Business Analyst Qualification.
- Google Analytics Certification.
- Cisco Data Analytics Essentials.
- Cisco Python Programming Essentials.
- Database Programming with SQL.
