

DEEPAK MALVIYA

Data Analyst | SQL • Power BI • Python • Advanced Excel

Hyderabad, India | +91-7989230916 | DeepakMalviya7604@gmail.com | [linkedin.com/in/deepak102825](https://www.linkedin.com/in/deepak102825) | github.com/deepak10281

PROFESSIONAL SUMMARY

Data Analyst with hands-on experience in SQL, Power BI, Python, and Advanced Excel. Completed 3 end-to-end projects covering data cleaning, customer segmentation, KPI dashboards, and revenue analysis — including a 100,000+ record cross-selling study and a two-page Power BI dashboard tracking 50,000+ transactions. Looking to bring hands-on analytical rigor and dashboard expertise to a Data Analyst role, turning raw data into insights that drive faster, better business decisions.

CORE SKILLS

- BI & Visualization:** Power BI, DAX, Power Query, Dashboard Development, KPI Tracking, Business Reporting.
- Data Analysis:** SQL, Python, Pandas, NumPy, Matplotlib, Advanced Excel, EDA, Statistical & Trend Analysis.
- Data Management & ETL:** SQL Server, Google BigQuery, Data Validation, Data Transformation, ETL, Reusable Data Workflows.
- Core Competencies:** Analytical Thinking, Problem-Solving, Stakeholder Management, Cross-Functional Collaboration.

WORK EXPERIENCE

- Data Analyst Intern — ExcelR EdTech, Hyderabad** Jan 2025 – May 2025
- Cleaned, validated, and transformed business datasets using SQL, Excel, and Power Query, improving report accuracy and reducing data quality issues by 20%.
 - Built Power BI dashboards and automated Excel reports to track KPIs and monitor performance trends, cutting manual reporting effort by 30%.
 - Standardized reporting workflows and dashboard formats for reuse across teams, improving recurring analysis efficiency by 25%.
 - Presented trend analysis and dashboard findings to stakeholders, supporting performance reviews and business decision-making.

PROJECTS

- Cross-Selling Strategy Optimization – UIIC Insurance**
Python, Pandas, NumPy, Matplotlib, EDA, Statistical Analysis | github.com/deepakmalviya7604/cross-selling-uiic
- Analyzed 100,000+ customer records and 38,000+ policy conversions for a general insurance provider to identify segments most likely to respond to cross-sell offers.
 - Applied EDA and statistical analysis in Python (Pandas, NumPy, Matplotlib) to uncover the behavioral patterns driving a 38% conversion rate.
 - Translated findings into targeted marketing recommendations for high-intent customer groups, projected to improve campaign planning efficiency by 20%.

- Customer Shopping Behavior Analysis**
SQL, Power BI, Advanced Excel, Power Query, DAX, Python | github.com/deepakmalviya7604/shopping-behavior-analysis
- Analyzed 5,000+ customer transaction records using SQL and Advanced Excel to uncover purchase patterns and category-level revenue performance.
 - Found Electronics was the top-performing category, driving 49% of total revenue (₹4.86L) — a key input for inventory and promotion planning.
 - Built interactive Power BI dashboards (Power Query, DAX) for revenue tracking, customer segmentation, and KPI monitoring, cutting manual reporting effort by 30%.

- Finance Analytics Dashboard | Power BI, DAX, Power Query, SQL** | github.com/deepak10281/Power-BI-Finance-Analysis
- Built a two-page interactive Power BI dashboard analyzing 50,000+ transactions across 5,000+ customers, covering 5 KPIs and 6 visuals with dynamic filters (Year, Occupation, Category, Metric).
 - Used SQL, Power Query, and DAX to structure transaction data and track fees, taxes, and YoY growth trends.
 - Identified Loan EMI (₹40.02M) and Transfers (₹36.17M) as the highest-value transaction types, with Retail leading all segments at ₹76M — insights supporting segment-focused strategy.

EDUCATION

Bachelor of Engineering – Electronics & Communication Engineering
Vidya Jyothi Institute of Technology, Hyderabad | 2020 – 2024 | CGPA: 8.17/10

CERTIFICATIONS & TRAINING

- IBM Data Analyst Professional Certificate – IBM – 2026
- Microsoft Power BI Data Analyst Certification (PL-300) – Microsoft – 2025
- Cisco Data Analytics Essentials – Cisco – 2024
- Qlik Sense Business Analyst – Qlik – 2023
- Data Analytics & Business Analytics Program – Naresh IT Technologies – 2026
