PROFESSIONAL SUMMARY

Data Analytics professional with internship and project experience in SQL, Python, Power BI, Tableau, Advanced Microsoft Excel, and Data Visualization. Skilled in Data Analysis, Campaign Performance Analysis, Customer Segmentation, Audience Analysis, KPI Reporting, Dashboard Development, and Insight Generation. Experienced in translating Business Requirements into structured analysis, interactive dashboards, and Data-Driven Recommendations to support Marketing Analytics, Business Intelligence, Performance Measurement, and informed decision-making.

EDUCATION

Bachelor of Technology (B.Tech.)in Electronics & Communication Engineering,

Vidya Jyothi Institute of Technology, Hyderabad2020 – 2024 | CGPA: 8.17/10

TECHNICAL SKILLS

Languages: SQL, Python.

BI Tools: Power BI, Tableau, DAX, Power Query, KPI Dashboards, Data Visualization.

Databases: SQL Server, MySQL, Google Big Query.

Data Operations: Data Cleaning, Data Validation, Exploratory Data Analysis (EDA), ETL, Data Transformation, Data Warehousing, Statistical Analysis, A/B Testing, Performance Tracking.

Tools & Libraries: Advanced Microsoft Excel, Excel VBA, Google Sheets, Pandas, NumPy, Matplotlib, Scikit-learn, GitHub, Microsoft Copilot.

WORK EXPERIENCE

Data Science Intern- IBM SkillsBuild | CSRBOX Foundation | Feb 2024 – Mar 2024

- Validated Python, Pandas, and NumPy datasets using data quality techniques, improving data accuracy through data cleansing and preprocessing.
- Performed Exploratory Data Analysis (EDA) and statistical analysis to identify trends, patterns, and actionable insights for data-driven decision-making
- Designed Matplotlib visualizations and analytical reports to communicate key findings, improving stakeholder understanding of business performance.
- Developed and evaluated Scikit-learn machine learning models, comparing algorithm performance to support predictive analytics and analytical recommendations.

Data Analyst Intern- ExcelR EdTech | Jan 2025 – May 2025

- Validated SQL, Microsoft Excel, and Power Query datasets using data quality rules, improving report accuracy by 20% through data cleansing and validation.
- Designed interactive Power BI dashboards and Advanced Excel reports using DAX and Power Query, reducing manual reporting effort and improving business performance tracking.
- Standardized reporting workflows by developing reusable Power BI dashboard templates, increasing recurring analysis efficiency by 25%, and ensuring consistent KPI reporting.
- Delivered KPI dashboards, trend analysis, and actionable insights to stakeholders, enabling data-driven decision-making across multiple business performance review meetings.

PROJECTS

Cross-Selling Strategy Optimization – UIIC Insurance Python, Pandas, NumPy, Matplotlib, EDA

- Engineered Python data preprocessing workflows using Pandas and NumPy to clean, validate, and transform over 100,000 customer records across 12+ attributes, improving data quality for predictive cross-selling analysis.
- Performed Exploratory Data Analysis (EDA) and Statistical Analysis to uncover customer behavior patterns, identify key business drivers, and generate insights for targeted marketing strategies.
- Built machine learning models achieving 89.15% prediction accuracy across three algorithms.
- Improved model accuracy to 92% through feature engineering and model optimization.

Customer Behavior – E-commerce Analytics Python, SQL, Power BI, Pandas, Data Visualization

- Cleaned, validated, and transformed over 5,000 customer records using Python and Pandas, ensuring accurate datasets for customer behavior analysis and business reporting.
- Developed and optimized 11+ SQL queries to analyze purchasing trends, customer segments, and revenue patterns, identifying \$486K revenue and 63% higher spending among subscribers.
- Designed Power BI dashboards to visualize KPIs, customer segments, and spending trends.
- Generated business insights using EDA to support customer retention and marketing decisions.

CERTIFICATIONS

- IBM Data Analyst Professional Certificate – IBM - 2026
- Microsoft Power BI Data Analyst (PL-300) – LinkedIn Learning - 2025
- Data Analytics Essentials – Cisco - 2024
- Qlik Sense Business Analyst Certification – Qlik - 2023
